

# Value for Money Innovative Learning

**pixelfountain**  
creating dialogue, building relationships

Do you want to spice up training programmes with a learning simulation?

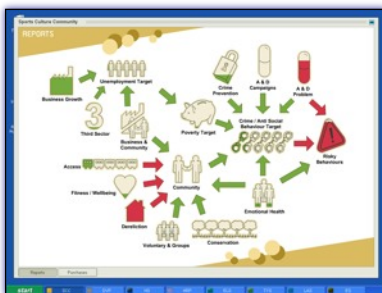

Use our tried and tested solution that has been used in over 70 councils / partnerships and 450 workshops.

Annual site licence £499 excluding VAT.

"[Planit is] one of the few development tools available to local authorities which enables managers to have fun whilst developing their knowledge around the sustainable communities agenda & providing clear messages about the improved outcomes and efficiencies which can be achieved through effective partnership working & collaboration."

**Alison Hughes, Head of OD, Wigan Borough Council.**

## Creating Dialogue, Building Relationships

pixelfountain learning simulations (resource management games) allow delegates to take on different roles in a virtual community. Delegates work together and make decisions to deliver shared outcomes. The learning simulations bring clarity to complex problems and accelerate the development skills & knowledge. Delegates see the big picture, understand cause & effect, and develop win-win solutions. Most importantly, the approach creates dialogue and builds relationships.

**We have delivered our learning simulations in 70+ local authorities and partnerships. We are now offering them as licences to provide a value for money solution to varied training / capacity building needs.**

"The simulation coupled with the discussion with other 'teams' made a welcome change from the usual death by power point and sleep inducing presentations. A well run event, which really got the message across in a stimulating and innovative way." - **Delegate**

### The learning simulations:

- Planit-Sustainability: sustainable communities
- Govern-IT: local authority governance
- Planit4CAST: climate change
- Planit-YP: young people's issues

### Easy to Use

The simulation games are easy to use and are supplied with a comprehensive trainer guide.

### What you get:

- A branded learning simulation.
- Worksheets and team labels.
- Trainer guide.

All you need to provide is a laptop, projector and some dry wipe markers, and you're ready to deliver exciting workshops that will engage your delegates and get your messages across.
